# MTC (METROPOLITAN TRANSPORTATION COMMISSION)

## TELEPHONE STUDY

### BRIEF INTERVIEWER SPECS

INTERVIEWER: \_\_\_\_\_

JOB NUMBER: CCG 91918

Specifics will be covered during the training session and individually with you as the study progresses. These brief specs have been prepared to highlight key points.

### BACKGROUND

This study is being conducted by Corey, Canapary & Galanis on behalf of the Metropolitan Transportation Commission (MTC). The MTC ([www.mtc.ca.gov](http://www.mtc.ca.gov)) is, “the transportation planning, coordinating and financing agency for the nine-county San Francisco Bay Area.” It works with every transit agency in the Bay Area to ensure the area’s transit needs are properly planned and coordinated on a regional basis.

Corey, Canapary & Galanis Research, as you know, is an independent opinion research firm, established here in San Francisco in 1933. MTC is our client. The MTC has commissioned this study in order to better understand the decision-making process when people choose to move. By doing so, it hopes to improve transit options for Bay Area residents.

In the unlikely event that the potential respondent questions the legitimacy of the study you may give him/her the name of our client if he/she wishes to verify this information.

- ⇒ Please check with Elizabeth Grant, Project Supervisor, prior to doing so, and only provide this information if it appears you may eventually achieve an interview. The client’s contact information is:
  - Valerie Knepper, Metropolitan Transportation Commission, 510-817-5824
- ⇒ For more information about MTC, respondents can visit [www.mtc.ca.gov](http://www.mtc.ca.gov).

*For your information, attitude and opinion research such as this is not classified as telemarketing and, as such, the new telemarketing rulings do not apply to the work we do.*

### INTERVIEWING METHOD

All of your interviews will be done on computers.

### WORDING OF QUESTIONS

The questions are to be asked exactly as worded. Please do not change or attempt to ask the questions in your own words. If the respondent does not understand a particular question, just repeat it as it is written on the screen/questionnaire. Never attempt to define or interpret what these words mean.

### BASICS

- The questions, as you can see, are structured.
- On the “open-ended” questions, please get a complete answer. Probe to get a clear description of what the respondent means.
  - Record the response of the interviewee in his/her own words, e.g., “I think . . .”
  - Do not record it in the third person, e.g., NOT “She said . . .”
  - Clarify incomplete or vague responses without suggesting answers or new ideas.

- Extensive thought has gone into the specific phrasing of each question so as to provide as much unbiased information as possible. Therefore, it is very important that the survey questions are asked as worded and interviewer instructions are followed.

Your role is to ask the questions and record the answers. It is not to clarify issues or express opinions.

## LEAD IN

You have some leeway on the introduction. If asked, you may say you work for Corey Research, which has been contracted by the MTC to handle the field interviewing and data processing on this study. Please assure respondents that no selling is involved and that all replies will be treated in the strictest of confidence.

The questionnaire will take approximately 10 minutes. You may wish to inform the potential respondent of this fact up front. You might say “the interview should run about 10 minutes, depending on your responses.”

## NOTES ON SPECIFIC QUESTIONS

Questions 8-42 ask the respondent to rate various attitudinal statements.

- ⇒ These statements will appear in random order, not sequentially. (This is to ensure that a response to a particular question does not receive a biased response based on its order in the questionnaire.)
- ⇒ For these statements, you will read anything that appears on your screen in white or yellow. The text in yellow (which appears in grey on the hard copy of your questionnaire) will generally need to be stated for the first three questions. After that, it will prompt you to repeat the text to the respondent once every three questions. You may always choose to read this text (even if not required) if you feel the respondent will better understand the question.
- ⇒ There are several questions where the yellow text will need to be repeated no matter what, for clarity and ease of understanding.

Note: In general, text in grey is for reference only, while text in white or yellow is to be read (unless a “DO NOT READ” notation is placed next to that particular line).

Question 50 references zip car, flex car, and city car share. These are all programs that allow members, for a fee, to use a car for a few hours or a day at a time as needed. This allows people to avoid owning a vehicle, yet take care of tasks (such as large shopping trips or multiple quick errands) that are better suited to private rather than public transportation.

## THE SAMPLE

The sample has been created to reach those most likely to have either moved to/within, or are planning to move to/within, Alameda, Contra Costa, Santa Clara, San Francisco, or San Mateo counties. The sample will be explained to you in detail at the end of the training session.

## RECORDING DISCONNECTS, REFUSALS, ETC.

Sampling and recording procedures will also be reviewed with you during the training session. Please use the standard disposition codes in indicating the result of each attempt.

- ⇒ For this study, we are also conducting interviews in Spanish and Cantonese (Chinese). If you call a person who speaks either of these languages, be sure to note whether the Spanish (SP) or Cantonese (CH) Interviewer should call them.

HAPPY INTERVIEWING!
